Detailed Action

Allowable Subject Matter

1. Claims 1-47 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to the independent claims 1 and 16, prior art fails to disclose or make obvious, in addition to the accompanying features of the claims, a mass filter comprising: a plurality of ion selection chambers having ion inlets and ion outlets, with the ion chambers further having plurality of electrodes disposed between the ion inlets and ion outlets; and incorporating an RF signal generator which is connected to the plurality of electrodes to produce a rotating electric field in each of the plurality of ion selection chambers.

With respect to the independent claim 45, prior art fails to disclose or make obvious, in addition to the accompanying features of the claims, a mass filter comprising: a first and a second pair of opposed electrodes having a concave electrode surface, and an RF signal generator which is connected to the first and second pair of opposed electrodes to generate a rotating electric field between the concave electrode surfaces.

The dependent claims 2-15, 17-44, and 46-47, are allowable by virtue of their dependence upon the independent claims 1, 16, and 45, respectively.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hartley et al. (2003/0201387 A1) disclose a rotating field mass spectrometer having a pair of closely spaced conductive electrodes, but fail to disclose the other features of the

applicant's invention as: the plurality of electrodes and ion chambers and the concavity of the electrode surfaces. Both M. Naito (3,886,357) and T.O. Merren (3,796,872) disclose a multiple ion beam type mass spectrometer using multiple ion selection chambers having ion inlets and outlets passing the ion beams, but fail to disclose the generation of a rotating electric field.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nikita Wells whose telephone number is (571) 272-2484.
